

CW: sexual content, racism, doxxing, sexism, etc.

guest, if you see this, i don't give a fuck. all you're doing is just attention seeking.
goodbye

first of all, you may ask "who the fuck is GuestSneezePlayz?" he's a manipulative asshole. he tries his best to get all the attention on discord, and he somehow gets it because he's a underage person 100%. he may say he's 15, but that can't be true, because he's too acoustic and he does NOT act like a 15 year old. make sure to call his mod Combine Sandbox - lanky sandbox.

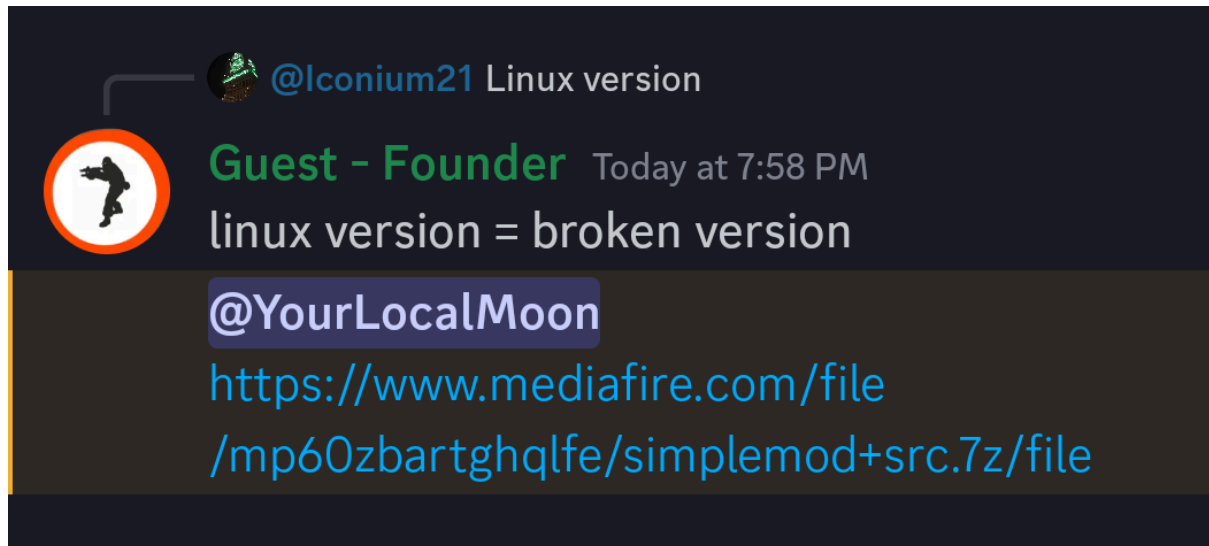

i met him for the first time when i saw the mod called GuestSandbox in ModDB, he seemed like a chill guy but when i tried to contact him i knew something was off. later i realized he was stealing stuff, and when i confronted him about it, he said this:

alter-source is a sandbox mod of mine, which is probably better than most of the mods on ModDB (except for garry's mod, it's perfect)

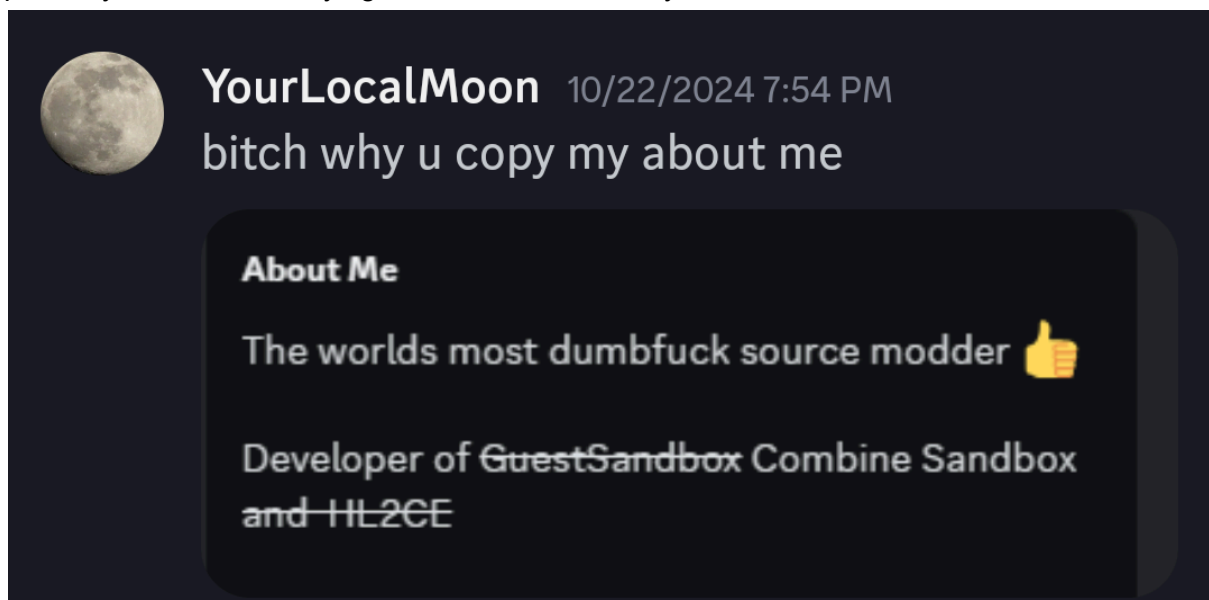

GuestSandbox is a typical, ordinary and bland mod, with nothing but a crappy physics manipulator, stolen assets and stolen spawnmenu (it was originally made for JBMod as an addon)

he also leaked 2 mods: HL2:CE, and my friend's mod called Simple Mod. the simple mod one is shown in the screenshot below.

he also likes to copy people, and it's shown in the screenshot below.

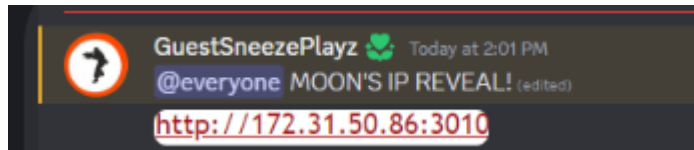

probably because he's trying to be better than everyone, since that's what he does also.

he keeps overrating his stuff, calling it better than others, and other shit.

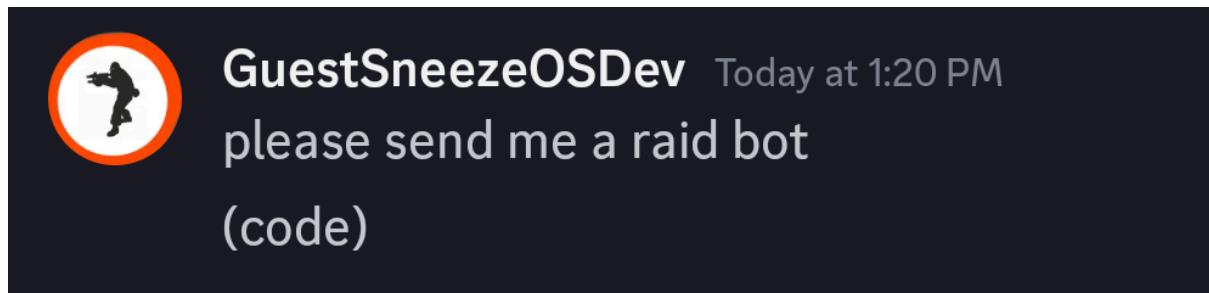

one time it even lead to a ip (fake one, dont try to ddos) leak. little did they know it wasn't me, and they got reported, but discord didn't do shit. after GuestSandbox got deleted, he

made another mod called GSPMod, which is basically ban evasion. later he renamed it to Combine Sandbox.

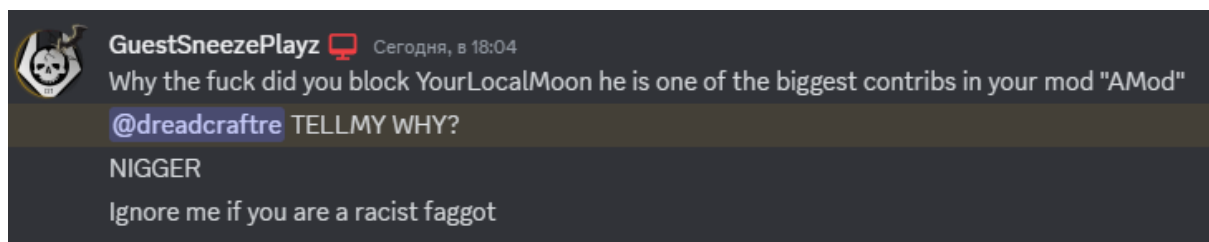

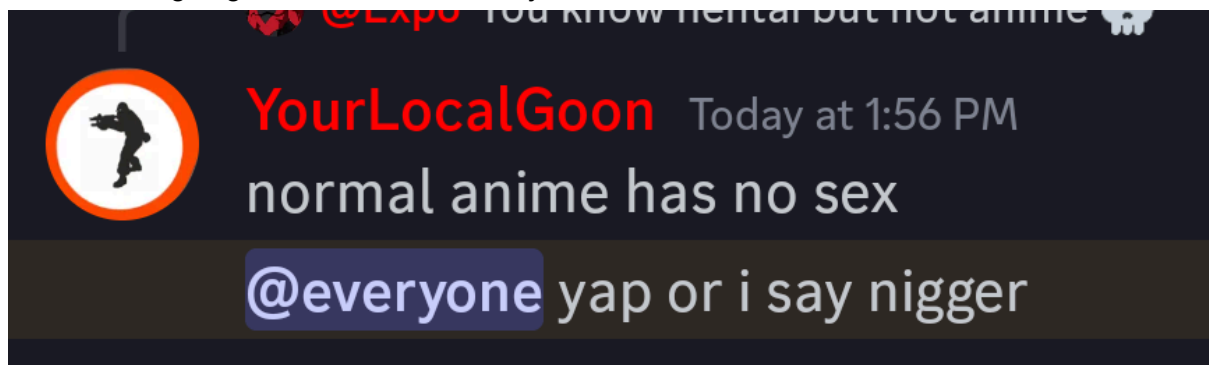

about the RMod Raid

it's all because they stole assets from me. no i couldn't do anything else, they just wouldn't listen. at least that teached deepzz a lesson, but guest is a dumbass so NOO HE LIKES RMOD CUZ I HATE IT. oh guest also asked me once for the raid bot i used

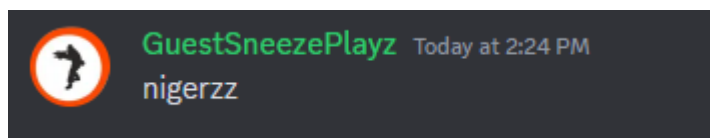

racism

i'm not even going to comment this one, just look:

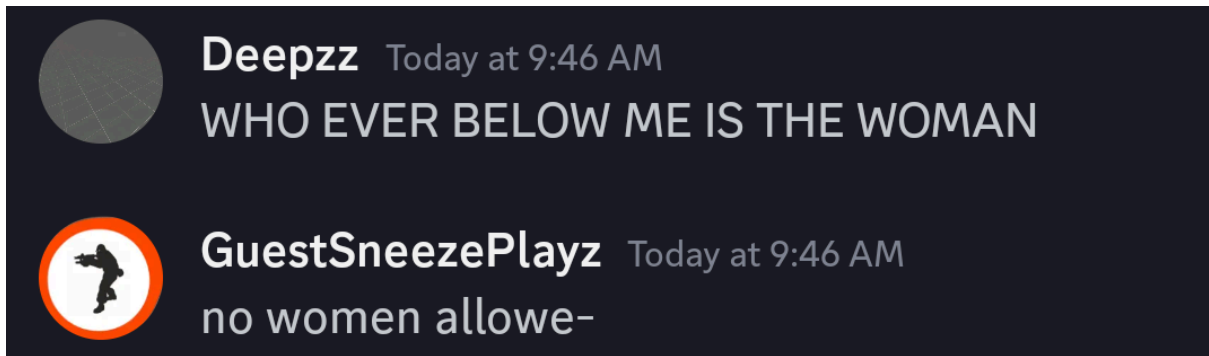

he literally said the hard r. no he's not black.

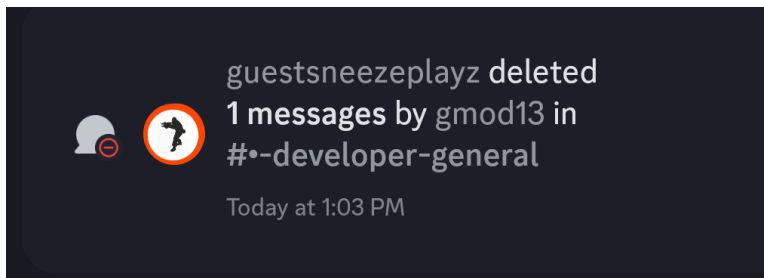

this too

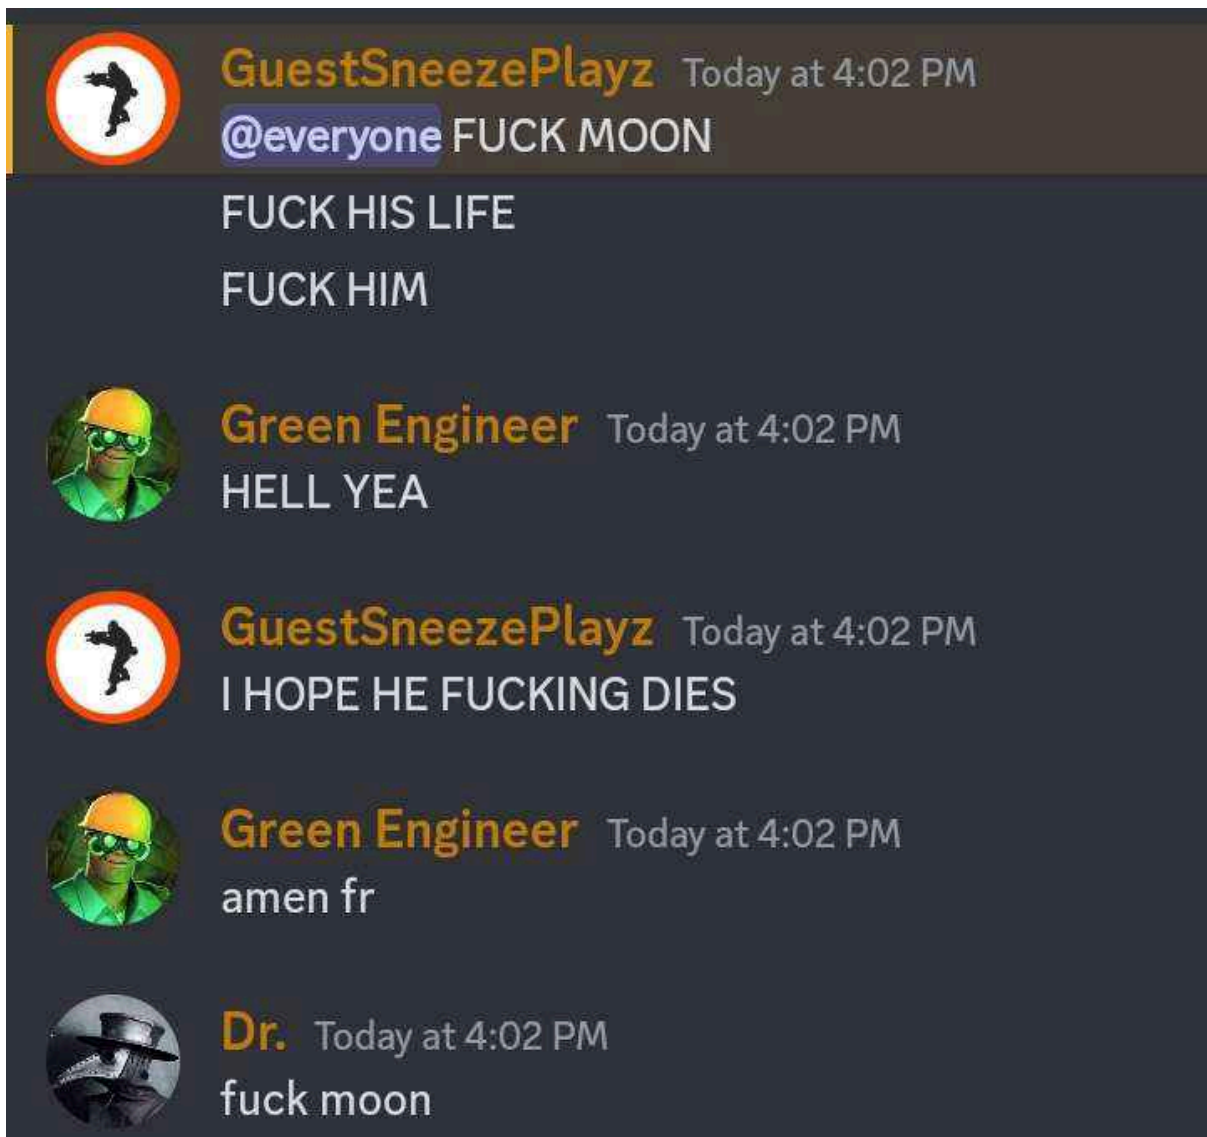

what about sexism? here's what he said once in a dev-chat in discord.

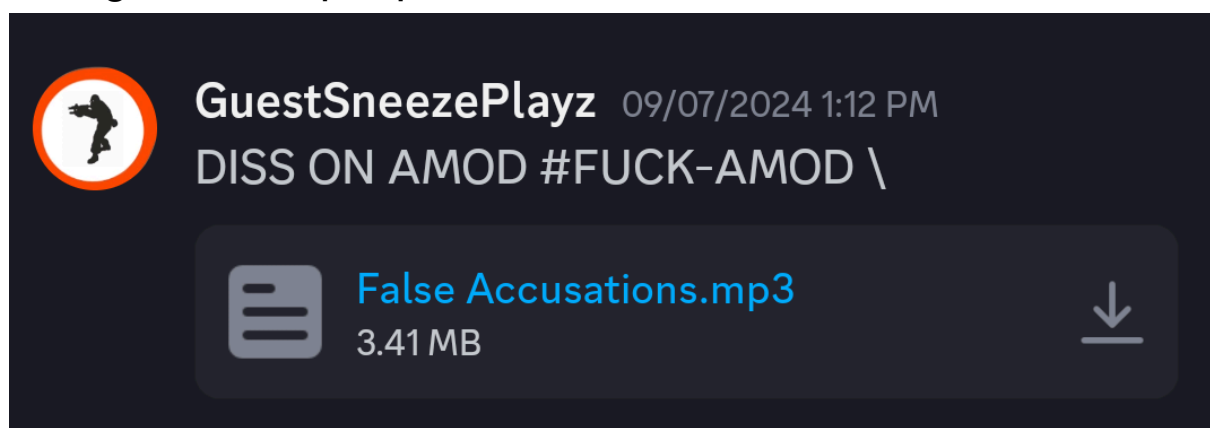

here's him trying to slip away to be unnoticed

answering the other doc:

just because of a single joke: "*Vortex Engine* >
XenEngine." One fucking joke, and they thought it was
"a joke"

That did NOT sound like a joke.

You kept saying that everywhere.

And if you'll say that its dark humor, well too bad.

Because it's just you trying to slip away from the accusations.

Targeting other people's hard work like that? That's low
as fuck.

MF HOW IS SANDBOX MODS - HARD WORK?

MF THOSE TWO ARE YOUR MODS

MF THOSE TWO ARE YOUR MODS

↳ *GuestSandbox, GSPMod,*

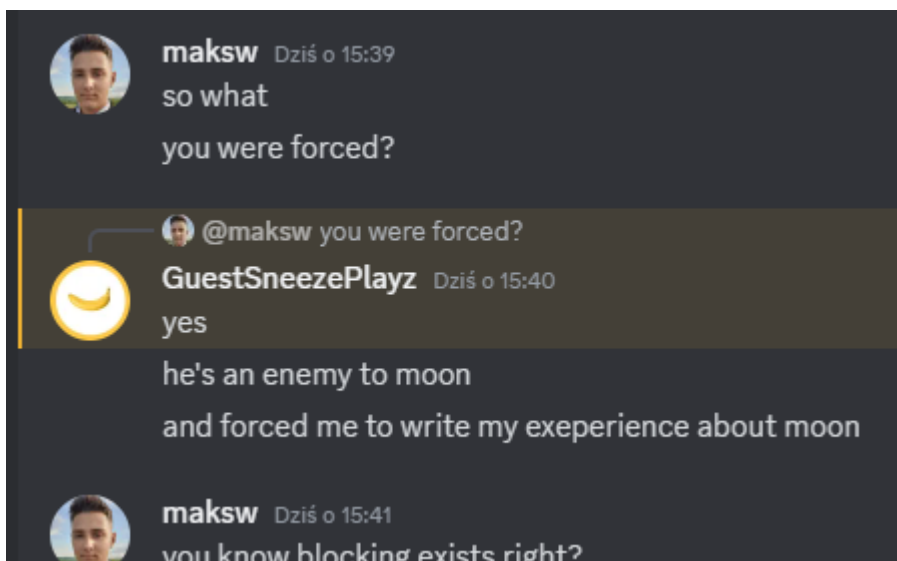

there's a difference between calling someone better than someone and calling
someone better than everyone

Just because you have a popular mod that does not make you a better coder

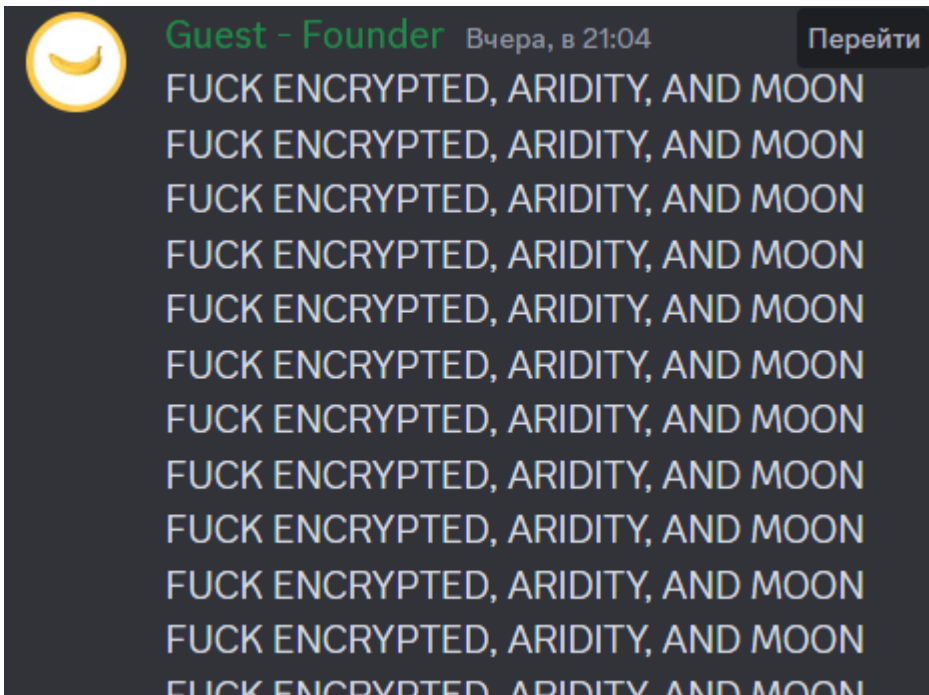

the only thing you do is steal assets and code, you literally did with guestsandbox
you can't add ANYTHING new

BONUS

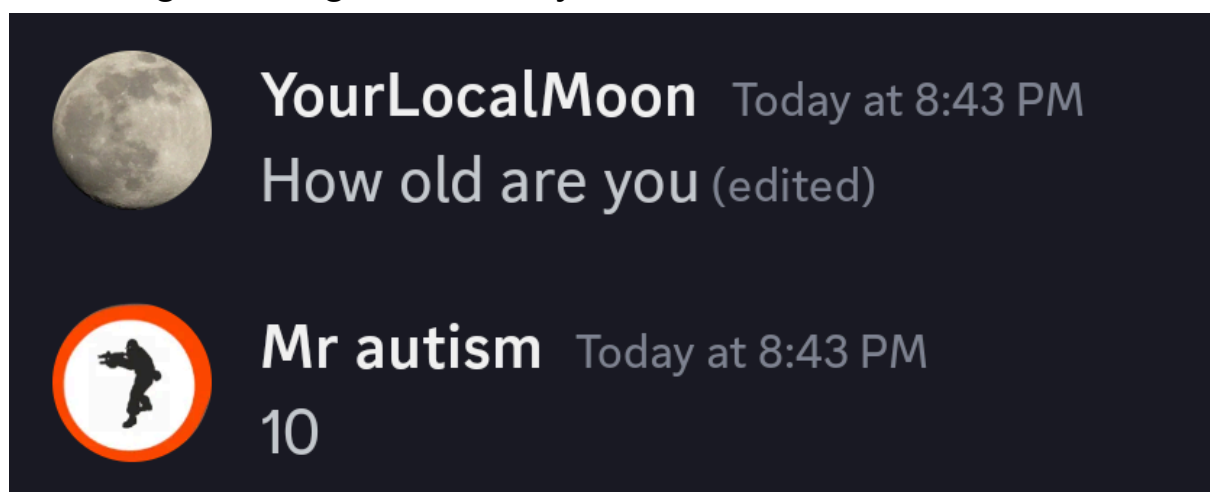

guest trying to blame everything on someone else

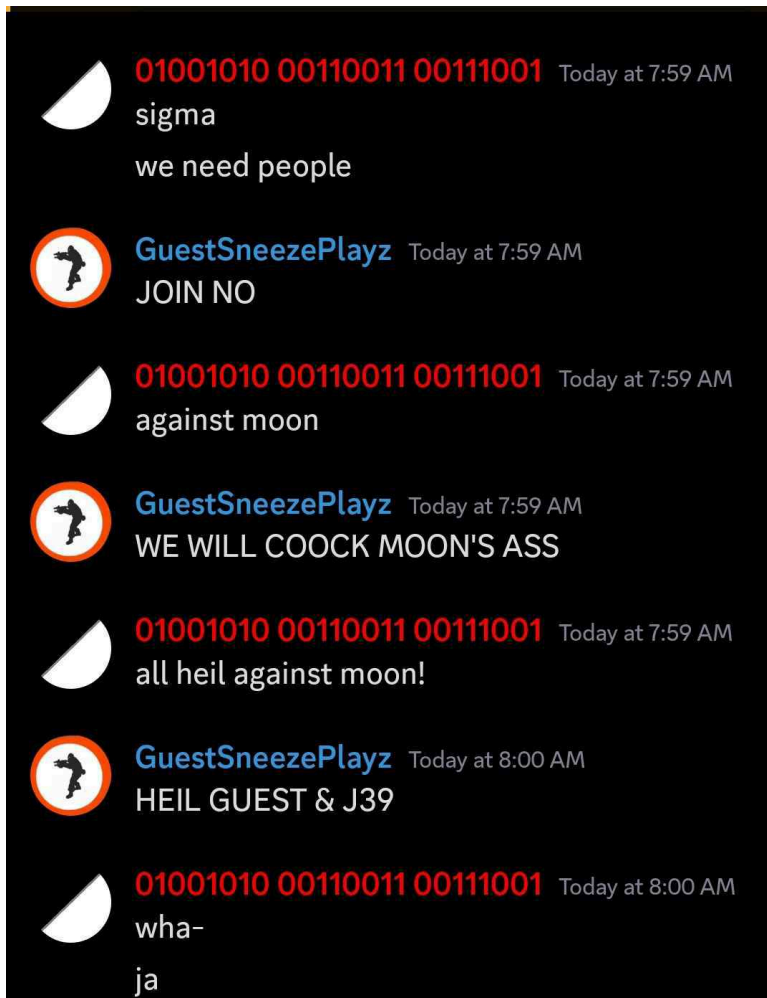

guest casually hating on people

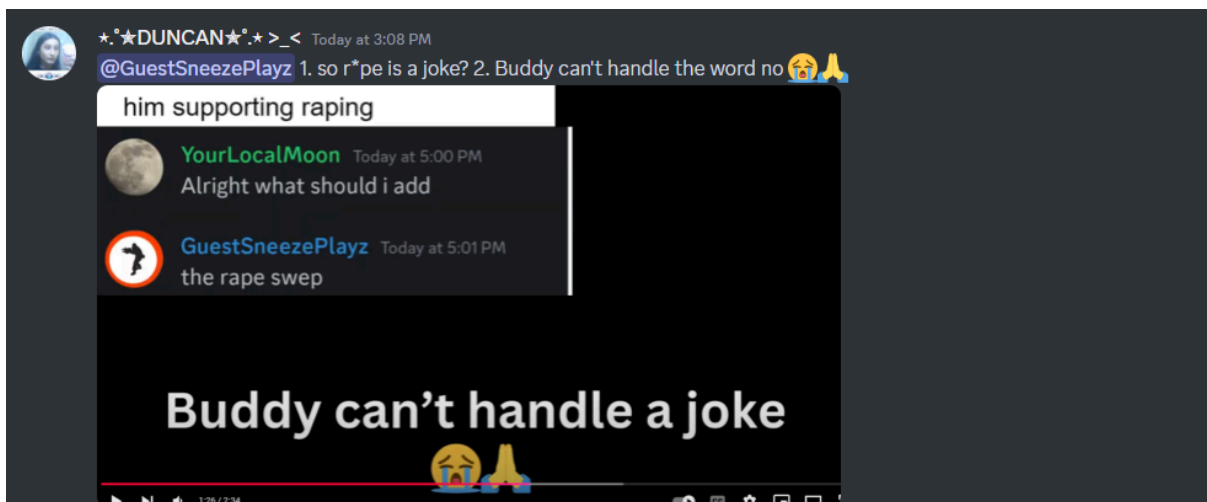

breaking news: guest is 10 years old

him being an idiot
